

Tray Storage Rack model 95008-1

Model Numbers

95008-1

Description

The A la Cart Tray Storage Racks are available with four shelves, all with an open wire design to allow for proper air flow in and around the individual trays. Our racks are designed for maximum capacity, at minimum cost.

Carts are for transporting individual trays from the dish room to the point of service, and make a space-saving dispenser as well as a drying rack. Individual trays are stacked on their sides to decrease drying times, and increase capacity.

Specifications

All heavy duty polished chrome surfaces are designed for long life, especially in the damp conditions required of a drying rack. Open wire surfaces minimize dust accumulation and allow for the best visibility, and air circulation. Posts are 72" high, and the shelves are adjustable in one inch increments. Each unit is complete with 4 shelves, 4 posts, 4 shelves (18" x 48"), 12 each shelf dividers, 8 side ledges, and 4 back ledges. The units also include 4 corner bumpers.

Each unit is complete with 4 heavy duty casters, 2 locking with brake. Casters are stem type, and all are non-marking.

All units are NSF listed to assure you of proper sanitation. Shelves are easily adjustable and the height can be set to exact specifications.

Mobile drying racks come un-assembled, and will require setting up on-site.

Capacity

The capacity of each cart is 240 trays.
