

LIGHTER DUTY UTILITY DISTRIBUTION SYSTEMS

PROBLEM SOLVING APPLICATIONS

MOD For Overhead Use

Get power to the center of the work area with no drop cords. Unit can provide any voltage or phased power to any equipment in the prep area. It's perfect for pass-through applications.

MDS-C For Work Counters & Tables

In lieu of stubbing up and providing 120v outlets in the backsplash, this unit can be placed anywhere for use by any piece of equipment. The unit can be mounted on a modified fabricated work table or counter – at the factory or in the field.

EPO For Portable Power

By installing ceiling outlets for the electropole, the pole can be plugged in to provide power anywhere it's needed. The adjustable foot allows for plugging and removing the unit for clear space when not in use.
