

UTILITY RACEWAYS

M SERIES MODEL MOD

The M-series Raceway is a Utility Distribution System comprised of a stainless steel sheet metal housing enclosing cable bus electrical system services that provide connections for individual appliances. Raceways with only electrical services are Listed by UL as Multi-outlet Assemblies. These raceways are intended primarily for use where it is difficult to get access to electrical outlets. Individual Point-of-use connection plates are located on the bottom along the length of the raceway.

SHORT FORM SPEC: The Avtec MOD raceway in an overhead island Utility Distribution System comprised of a stainless steel housing enclosing the cable bus electrical system. Standard units include electrical only, with breakers mounted on the same connection plate as the outlet. Other services can be specified if needed.

STANDARD FEATURES:

- Point-of-use branch circuit protection with receptacle mounted adjacent to Point-of-use branch circuit protection on 4.5x12" connection plate. NOTE: For other voltage configurations, consult factory.
- Ground fault circuit interrupter for 15 & 20 amp, 120/1, straight blade receptacles
- Cable bus
- Threaded hanging rods for mounting to structural supports or ceiling

SPECIFICATIONS:
