

COOK-CHILL SYSTEMS

NON TILT-OUT AGITATOR KETTLE MODEL INA/2SA

CapKold® steam jacketed kettle, with patented inclined agitator, to ensure gentle yet thorough mixing of a broad range of products and enhanced suspension of ingredient solids during product transfer. 90 PSI maximum operating jacket pressure, 3" air operated drop down product discharge valve and variable speed agitator drive standard.

PROJECT NAME:

LOCATION:

ITEM NO:

QTY:

MODEL NO:

AIA NO:

SIS NO:

AVAILABLE MODELS:

- INA/2-50 (50 GALLON)
- INA/2-100 (100 GALLON)
- INA/2-150 (150 GALLON)
- INA/2-200 (200 GALLON)
- INA/2-300 (300 GALLON)

CONSTRUCTION:

- Hemispherical bottom jacket is designed for up to 90 PSI working pressure and built to ASME code and National Board registered. Kettle will operate dependably at any steam pressure between 15 PSI and 90 PSI.
- Capacities are working output gallons
- Spiral baffle within jacket for more efficient circulation of cooling water
- Type 316 stainless steel inner hemisphere and all wetted parts. Type 304 elsewhere
- Interior and exterior of kettle finished to a No. 4 Sanitary Finish
- 3" air operated, drop down, stainless steel, product transfer valve mounted flush to kettle bottom
- Stainless steel legs with adjustable stainless steel floor mounting flanges
- 3/4" swing spout faucet mounted at kettle rim
- Manufactured to latest sanitary standards and HACCP compliant
- NSF listed

AGITATOR DESIGN:

- Inclined, easily removable agitator and breaker bar, with removable nylon edge scraping blades which scrape entire heat exchange surface
- Variable speed gear motor drive with 7-36 rpm operating range
- Heavy duty T.E.F.C. motor

CONTROL SYSTEMS:

- Flush mounted temperature sensor
- Emergency stop switch mounted near kettle rim
- Vacuum breaker and safety valve supplied and factory mounted
- Kettle-mounted control valve box pre-piped for single point utility connections

NOTE:

- Recommend 50-75 PSI (min) steam for rapid cooking
- Larger sizes (Consult factory for specifications)
- Single or dual kettle control panel required to operate (See Spec CKCP)

ORIGIN OF MANUFACTURE: Designed and manufactured in the United States.

CKINA2 Kettle W/Non Tilt-Out Inclined Agitator & Pre-Piped Valve Box

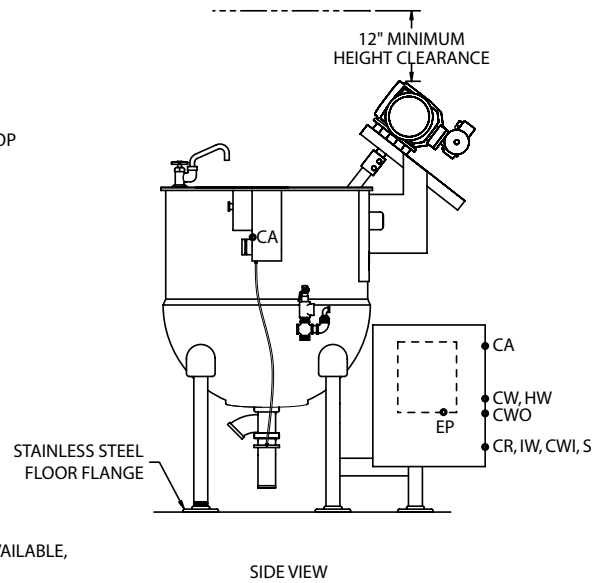

OPTIONS/ACCESSORIES:

- Agitator located $\pm 45^\circ$, $\pm 90^\circ$ of rear centerline
- Pinned agitator for heavy, viscous products
- Remote control valve boxes
- 3" manual ball valve with 90° elbow
- Prison package
- 2 piece hinged cover (1/3 solid, 2/3 open grate)
- 2 piece solid cover
