AVAILABLE MODELS:

- CKPB (Pasta Basket)
- CKPBD (Pasta Basket Dolly)

CONSTRUCTION:

BASKET

- Type 316 stainless steel construction with 3/32" perforated upper cylinder and cone bottom mesh
- Four heavy duty support lugs rest on kettle rim and protect kettle cook surface from contact and wear
- Heavy bar rim maintains round shape of basket
- Hand actuated latching bottom slide dump gate provides 12" diameter opening for rapid and complete product unloading
- Heavy duty lifting bar with yoke simplifies hoist connection and centering of load

DOLLY

- Type 304 heavy 2" tubular stainless steel construction
- Support ring height accepts basket loading lugs and maintains basket off floor and at convenient work height for loading and cleaning
- Three 4" diameter heavy duty swivel casters allow easy movement of empty basket/dolly over most floor surfaces

NOTES:

- A minimum 1 ton electric or manually operated hoist and rail system must be provided for safe and easy kettle loading. See CKH Hoist and Rail System Spec. Sheet
- Use of Basket Dolly (See below) recommended for sanitation, safe floor movement, staging and convenient storage when not in use

ORIGIN OF MANUFACTURE: Designed and manufactured in the United States.
