

FREE START-UP

and Additional One Year Warranty on any Groen Steamer Purchase

Groen believes strongly in the products it builds and backs them with the best warranty in the industry. By using Groen's free start-up program you're ensuring your unit will be professionally inspected by an Authorized Service Agent (ASA) — for free. And now, if requested within 30 days of shipment, receive an **ADDITIONAL ONE YEAR WARRANTY** beyond the standard factory warranty!

Concerned about water quality? The ASA will gather water samples and submit for testing. Upon test results, if the recommended Groen water treatment system is purchased, installed and maintained, even water-related issues will be covered under warranty.
