MODEL NO:	
AIA NO:	
SIS NO:	
CSI SECTION:	11400

### TECHNICAL SPECIFICATIONS:

- Wash flow adjusted with control knob on AFC by the operator
- Clockwise rotation of control knob increases wash flow, counter-clockwise rotation decreases wash flow
- Control is mounted under clean drain board
- Pre-wired through the pistol grip, on/off control, for single point electrical connection
- Optional field retrofit kit installed in field and wired through the pistol grip, on/off control, for single point electrical connection
- 115V/208V/230V
- Three years parts and labor

### OPTIONS & ACCESSORIES:

- ☐ Alternative mounting under soiled drain board with minimum 30" of soiled drain board
- ☐ Field retrofit kit: control is mounted on wall, wash motor is replaced with a variable frequency drive wash motor (installed in field by approved Unified Brands ASA Technician)
