

KETTLES

PASTA COOK KETTLE BASKET & DOLLY MODELS CKPB

Stainless steel cone bottom cook basket with latching slide dump gate, designed to facilitate the bulk cooking of pasta and other products into the CapKold Pasta Kettle. Specify for 100, 150 or 200 gallon kettle. Stainless steel staging, loading and transfer dolly.

AVAILABLE MODELS:

- CKPB (PASTA BASKET)
- CKPBD (PASTA BASKET DOLLY)

BASKET CONSTRUCTION:

- Type 316 stainless steel construction with 3/32" perforated upper cylinder and cone bottom mesh
- Four heavy duty support lugs rest on kettle rim and protect kettle cook surface from contact and wear
- Heavy bar rim maintains round shape of basket
- Hand actuated latching bottom slide dump gate provides 12" diameter opening for rapid and complete product unloading
- Heavy duty lifting bar with yoke simplifies hoist connection and centering of load

DOLLY CONSTRUCTION:

- Type 304 heavy 2" tubular stainless steel construction
- Support ring height accepts basket loading lugs and maintains basket off floor and at convenient work height for loading and cleaning
- Three 4" diameter heavy duty swivel casters allow easy movement of empty basket/dolly over most floor surfaces

RECOMMENDED USAGE: Use of Basket Dolly recommended for sanitation, safe floor movement, staging and convenient storage when not in use.

INSTALLATION: A minimum 1 ton electric or manually operated hoist and rail system must be provided for safe and easy kettle loading. See CKH Hoist and Rail System specification sheet.
